

# Mobile eID

## Jon Shamah BBs Norway

- **Management within the population.**
- **Resilience.**
- **Ownership.**

Martin has been with Bell ID for seven years following previous roles with Datacard and ACI and has a total of twenty years in the smart card industry

- Your next ID credential may not be on a plastic card
- The mobile phone will become the true multi application device in your pocket
- ...but... what about security if it's lost or stolen?

## Dean Bublely Disruptive Analysis

- **Mobile – not as easy as it looks**
- **Operators + ID: revenue or just anti-churn?**
- **The Tyranny of the SIM card**
- **User behaviour & wants/needs**
- **Multiplicity**
